RE: RRG Clayton Chemical Site (soil removal)

Dear Mr. Turner,

I am Corporate Counsel for Siegel-Robert, Inc. and in that capacity your September 27, 2005, correspondence to the Company's CEO, David Adams, has been referred to me for a response. In that regard, it is my understanding that this Company has been identified as a potentially responsible party (PRP) at the above referenced site and has been placed in the group of PRPs identified as contributing 10,000 gallons to 74,999 gallons of waste to the site.

We have reviewed our records and have been unable to confirm any Company activity related to this site. I am writing you at this time to request any information you may have concerning Siegel-Robert's involvement with or relation to this site. Any information you can provide to assist us as we evaluate what role, if any, the Company should have in the removal action would be greatly appreciated.

Thank you for your courtesy and cooperation in this matter.

Sincerely,

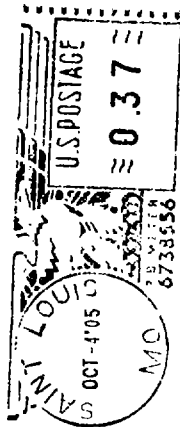

By Stiller

Barry J. Klinckhardt
Corporate Counsel
